

# VFX Artists...

Do you know that the crew that works on the movies, television shows and commercials you help create receives healthcare that travels with them, even when they switch companies?

...And a pension?

...And standardized working conditions?

...And have enjoyed these benefits for almost 100 years?

That's because their union fought for those benefits for them. We want to do that and more for you. Come meet Peter Marley, Vanessa Holtgrewe and representatives from the IATSE (International Alliance of Theatrical Stage Employees, the largest union for below the line entertainment workers in the US and Canada). There will be a short presentation with a Q and A following.

**WHEN:** Sunday, June 3<sup>rd</sup> 1-3pm

**WHERE:** The International Cinematographer's Guild, 7755 Sunset Blvd.  
Hollywood, California 90046 (parking available on the surrounding streets)
