Important Questions	Answers	Why this Matters:
What is the overall <b>deductible</b> ?	\$0	See the chart starting on page 2 for your costs for services under this plan.
Are there other <b>deductibles</b> for specific services?	No	You don't have to meet <b>deductibles</b> for specific services, but see the chart starting on page 2 for other costs for services under this plan.
Is there an <b>out-of-pocket limit</b> on my expenses?	\$1,500 - Participant \$3,000 - Participant plus one dependent \$4,500 family	The <b>out-of-pocket limit</b> is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you plan for health care expenses.
What is not included in the <b>out-of-pocket limit</b> ?	Premiums, drug costs and health care not covered by this plan.	Even though you pay these expenses, they don't count toward your <b>out-of-pocket limit</b> .
Is there an overall annual limit on what the plan pays?	No	The chart starting on page 2 describes any limits on what the plan will pay for <i>specific</i> covered services, such as office visits.
Does this plan use a <b>network of providers</b> ?	Yes. For a list of <b>preferred providers</b> , see <a href="http://www.healthnet.com">www.healthnet.com</a> or call 1-800-522-0088.	If you use an in-network doctor or other health care <b>provider</b> , this plan will pay some or all of the costs of covered services. Be aware, your in-network doctor or hospital may use an out-of-network <b>provider</b> for some services. Plans use the term in-network, <b>preferred</b> , or participating for <b>providers</b> in their <b>network</b> . See the chart starting on page 2 for how this plan pays different kinds of <b>providers</b> .
Do I need a referral to see a <b>specialist</b> ?	Yes. Requires prior written authorization.	This plan will pay some or all of the costs to see a <b>specialist</b> for covered services but only if you have the plan's permission before you see the <b>specialist</b> .
Are there services this plan doesn't cover?	Yes	Some of the services not covered by this plan are listed on page 5. See your policy or plan document for additional information about <b>excluded services</b> .

### Health Net Active Plan

Coverage for: Participant + Dependents

Plan Type: HMO

- **Co-insurance** is *your* share of the costs of a covered service, calculated as a percent of the **allowed amount** for the service. For example, if the plan's **allowed amount** for an overnight hospital stay is \$1,000, your **co-insurance** payment of 10% would be \$100. This may change if you haven't met your **deductible**.
- **Co-pays** are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
- The amount the plan pays for covered services is based on the **allowed amount**. If an out-of-network **provider** charges more than the **allowed amount**, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the **allowed amount** is \$1,000, you may have to pay the \$500 difference. (This is called **balance billing**.)
- This plan may encourage you to use **in-network providers** by charging you lower **co-insurance**, **deductibles**, and **co-payments**.

The Consolidated Omnibus Budget Reconciliation Act (COBRA) offers the opportunity to purchase continued health care coverage in certain circumstances where your coverage would otherwise terminate. Under COBRA, if you lose coverage from the Motion Picture Industry (MPI) Active Health Plan due to termination of employment (for a reason other than gross misconduct) or a reduction of hours, you may purchase continued coverage under the group plan for you, your enrolled spouse and dependent children for up to 18 months. If you reside in California and are receiving MPI health benefits through COBRA, you may be able to extend your COBRA benefits up to an additional 18 months through a special state COBRA program coordinated through the HMOs. In order to qualify, you must be enrolled in an HMO at the time your federal COBRA coverage is terminated. You cannot retroactively enroll in an HMO to extend your COBRA.

You will have 60 days from the later of your Termination of Coverage date or the date of your notice to elect continuation coverage through COBRA by submitting your COBRA Extended Health Coverage Election Form and Notice. Once you elect to purchase continuation coverage, you will have an additional 45 days to make your first payment to MPI, and if you elect continuation coverage through COBRA, **you must pay the full cost of coverage plus 2% each month to MPI. Until MPI receives your payment, you will not have health insurance coverage after your Termination of Coverage date.**

COBRA requires that there be no break in your health insurance coverage. Therefore, your payment must be for coverage from your Termination of Coverage date to the date that MPI receives your payment. When MPI receives your payment, you will be covered retroactively to your Termination of Coverage date. If you have incurred any medical expenses in that time, MPI will reprocess those claims.

If you are eligible for Medicare, you must enroll in Medicare Part B in order to purchase continuation coverage through COBRA. Once enrolled, Medicare becomes your primary coverage and MPI becomes your secondary coverage. Please refer to MPI's Summary Plan Description for additional information regarding Coordination of Benefits.

### Health Net Active Plan

Coverage for: Participant + Dependents

Plan Type: HMO

## Questions and answers about the Coverage Examples:

### What are some of the assumptions behind the Coverage Examples?

- Costs don't include **premiums**.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from in-network **providers**. If the patient had received care from out-of-network **providers**, costs would have been higher.

### What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how **co-insurance**, **deductibles**, and **co-payments** can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

### Does the Coverage Example predict my own care needs?

- ✗ **No.** Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

### Does the Coverage Example predict my future expenses?

- ✗ **No.** Coverage Examples are **not** cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your **providers** charge, and the reimbursement your health plan allows.

### Can I use Coverage Examples to compare plans?

- ✓ **Yes.** When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

### Are there other costs I should consider when comparing plans?

- ✓ **Yes.** An important cost is the **premium** you pay. Generally, the lower your **premium**, the more you'll pay in out-of-pocket costs, such as **co-insurance**, **deductibles**, and **co-payments**. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
