## Voting Made Simple! The New L.A. County Voting System

Los Angeles County will have a **new voting system for the 2020 March Primary** moving away from a precinct-based model to the **"Vote Center"**. It will create an **11-day period of voting** allowing LA County voters to vote at any designated Vote Center. There will also be several other changes that will improve the voting experience.

### Will you know how to use it?

**Join TAG's Political Action League (PAL) for a workshop to help prepare you!**  
Come learn about these changes from representatives of the Los Angeles County Registrar-Recorder's Office.
