MPI

COVID-19 UPDATE

Dear Business Agent:

Members of your local who may be eligible for up to six months of federally subsidized/no-cost Consolidated Omnibus Budget Reconciliation Act (COBRA) continuation coverage through the Motion Picture Industry Health Plan (MPIHP) were recently sent information about this coverage by U.S. Mail and will receive information about it via email. **The purpose of this correspondence is to ask that you strongly encourage your members who would like to enroll in subsidized/no-cost COBRA continuation coverage to do so by completing the electronic election form (eForm) available on the MPIHP website. This eForm is available to eligible members when they log in to their personal MPIHP account.**

MPIHP only sent information to those members determined to be potentially eligible for federally subsidized COBRA continuation coverage. Members who have never earned the minimum hours required to be eligible for coverage through MPIHP, dependents who have lost eligibility due to age or other life events, and members who have previously exhausted their COBRA continuation coverage rights are *not eligible* for this subsidized/no-cost coverage. In addition, those members or their dependents who are eligible for other group coverage or for Medicare may not receive this subsidized/no-cost COBRA continuation coverage.

Again, MPIHP has developed an eForm for members to use to enroll in COBRA continuation coverage. While a paper copy of this election form will be made available to eligible members for their completion, we strongly encourage them to use the election eForm by logging in to www.mpiphp.org. Please note that members need to log in to access the eForm, as the form is not available online under dependent accounts.

We welcome members to check MPIHP's website (www.mpiphp.org) regularly for any updates on this topic.

Sincerely,

Participant Services Center
